

## Heart Equations

Solve each heart equation from left to right. Color the final answer for each equation red.

A row of four heart-shaped equations. Each equation consists of a heart with a number, followed by a heart with an operator, an equals sign, a heart with a number, an equals sign, a heart with a number, an equals sign, and a final empty heart for the answer.
$$5 + 4 = \quad + 6 = \quad - 5 = \quad + 9 =$$

A row of four heart-shaped equations. Each equation consists of a heart with a number, followed by a heart with an operator, an equals sign, a heart with a number, an equals sign, a heart with a number, an equals sign, and a final empty heart for the answer.
$$9 - 2 = \quad + 8 = \quad - 6 = \quad + 8 =$$

A row of four heart-shaped equations. Each equation consists of a heart with a number, followed by a heart with an operator, an equals sign, a heart with a number, an equals sign, a heart with a number, an equals sign, and a final empty heart for the answer.
$$13 - 4 = \quad + 8 = \quad - 8 = \quad + 4 =$$

Bonus: Add the final answers for each heart equation. What is the total?
